DOVER BRIDGE REHABILITATION PROJECT TO GET UNDERWAY
GLENWOOD AVENUE OVER SPAULDING TURNPIKE TO BE CLOSED TO TRAFFIC

The New Hampshire Department of Transportation announces work is scheduled to begin the week of April 1, 2002 on the rehabilitation of the Glenwood Avenue bridge over the Spaulding Turnpike in Dover.

This project, which includes the replacement of the bridge deck, will require the bridge to be totally closed to traffic until August of this year. During the bridge closure, traffic on Glenwood Avenue will be detoured via Sixth Street.

R.S. Audley, Inc. of Bow, New Hampshire is the contractor for the \$992,000 project, which has a final completion date of September 2002.
